ADEDOYIN, Simon Oluwatimilehin

Chief Programme Analyst.

CAREER OBJECTIVES	
	To continue to work in harmony with my team members while effectively and efficiently carrying out my duties and also contributing to the advancement of my organization and leaving a legacy.
EDUCATION/TRAINING	
Covenant University, Ota Ogun State.	2017. M. Eng. Information and Communication Engineering.
African Leadership Development Centre, Covenant University, Ota Ogun State.	2017. Certificate in Leadership Development
University of Agriculture Abeokuta, Ogun State	2015. Post Graduate Diploma (PGD) in Electrical and Electronics Engineering.
Yaba College of Technology	2004. H.N.D. Electrical/Electronic Engineering (Electronics option) Yaba College Of Technology
Yaba College of Technology	1999. N.D. Electrical/Electronic Engineering Yaba College Of Technology
Professional Certifications	• 2021 Cisco Academy IT Essentials trainer certification • 2020 International Computer Driving License (ICDL) TETFUND training. • 2019 Registered Engineer. (COREN). I.D. R50532 • 2019 Certificate in Solar Installation, Design and System Analysis Professionals. Gennex Technologies & Canadian Solar • 2018 ngNOG Certificate in Internet Infrastructure • 2015 The Nigerian Institute of Electrical and Electronics Engineers (NIEEE) Workshop on Lightning Arrestors, Surge Protection, Grounding and Bonding. • 2015 Dlink Certified Cable Expert (DCCE). • 2004 Comp TIA A+ Certified Professional.

WORK EXPERIENCE	
January 1, 2024 – till date.	Yaba College of Technology, Lagos Chief Programme Analyst (C.I.T.M.) • Head of Section, (H.O.S.) Fiber Optic networks & Network Infrastructure. • Design and installation of new fiber optic networks for the college. • Management of Optical fiber backbone of the College for Local Area Network connectivity. • Management of the CCTV infrastructure in the college. • Management of ICT infrastructure in the server and network operating rooms including the solar energy systems for uninterrupted electrical power backup. • Management of ICT infrastructure in CBT Centre and Computer Laboratories including the solar energy systems for uninterrupted electrical power backup. • Other duties as assigned.
January 1, 2021 – till December 31 st , 2023.	Yaba College of Technology, Lagos Asst. Chief Programme Analyst (C.I.T.M.) • Head of Section, (H.O.S.) Fiber Optic networks, Hardware & Maintenance • Design and installation of new fiber optic networks for the college. • Management of Optical fiber backbone of the College for Local Area Network connectivity. • Design and installation of LAN networks of the college. • Maintenance of LAN networks of the college. • Coordination of computer Hardware repairs and maintenance. • Management of CBT and Computer Laboratories computer systems and networks. • Other duties as assigned.
January 1, 2018 – December 31, 2020	Yaba College of Technology, Lagos Principal Programme Analyst (C.I.T.M.) • Head of Section, (H.O.S.) Fiber Optic networks, Hardware & Maintenance • Design and installation of new fiber optic networks for the college. • Management of Optical fiber backbone of the College for Local Area Network connectivity. • Design and installation of LAN networks of the college. • Maintenance of LAN networks of the college. • Coordination of computer Hardware repairs and maintenance. • Management of CBT and Computer Laboratories computer systems and networks.

April 2016 – till date Scope of Responsibility	Yaba College of Technology, Lagos Part- time Lecturer in Electrical/Electronic Engineering Department. • Lectures ND Part-time Electrical Engineering Science • Lectures HND Part-time Electronics Maintenance and Repairs • Lectures HND Part-time Computer Hardware maintenance and repairs.
January 1, 2015 – December 31, 2017. Scope of Responsibility	Yaba College of Technology, Lagos Senior Programme Analyst (C.I.T.M.) • Management of Optical fiber backbone of the College for Local Area Network connectivity. • Installations of new optical fiber cables to connect various schools/departments to the College internet facilities. • Maintenance of the Local Area Network of the College. • Management of the Computer Laboratories within Centre for Information Technology and Management (C.I.T.M.).
April 2011 – December 31, 2014 Scope of Responsibility	Yaba College of Technology, Lagos. Programmer 1, Centre for Information Technology and management. (C.I.T.M.) • Monitor, carry out some repairs and supervise necessary maintenance, repairs and installations of the College optical fiber backbone that connects internet facilities to all schools and units. • Carry out maintenance and repairs of the college local area network in various offices and departments. • Planning and execution of local area network projects in the college. • Supervise the usage of the main computer laboratories and maintenance of the systems and the local area network (LAN) of the laboratories. • Maintenance and repairs of equipment of optical fiber and LAN resources in the server rooms.
May 2010 – April 2011 Projects handled while a contractor	Contractor with 21st Century Technologies Limited • Optical fiber projects for First Bank inside Switch Networks Saka Tinubu, Union Banks Balogun and General Hospital, and Sterling Bank General Hospital, Lagos Island. • Duct project to deploy fiber optics network to American Embassy at Walter Carrington Street, Victoria Island.
October 2005 – April 2010 Full staff	21 st Century Technologies Limited. Plot 249A Muri Okunola Street Victoria Island External Line Plant (ELP) Project Engineer.
Scope of Responsibility	• Network expansion planning and execution for optics fiber

	which involves. - Survey of the best duct route for fiber optics - External Line plant (ELP) design of the network - Construction of the duct by either direct labour or managing contractors. - Construction of hand holes and junction box (JB) either by direct labour or managing contractors. - Calibrating of the duct and laying of the fiber optics • Network expansion planning and execution for underground or aerial copper network which involves. - Survey of the best duct route for underground copper network and aerial cable which entails poles planting and cable stringing. - Design of aerial copper network - Executing copper expansion project by managing the contractors. • ELP Network maintenance and repairs. - Ensure maintenance and repair of ducts containing fiber and copper. - Answer emergency fiber cut and assist in the repairs. • Design and execute optic fiber cable to the Banks and other end users either for p2p, dark fiber or Ethernet to the point of fiber termination. • Ensure by getting men on site, safety of our optical fiber and copper network whenever road construction or rehabilitation project by the state government is ongoing at any area we have our network.
Some Projects Handled	• Duct work to deploy fiber optics from Festac second gate to Agbara along Lagos to Badagry expressway for the purpose of providing fiber optics network to companies inside Agabara Esate. • Nigerian Civil Aviation Authority (NCAA) network expansion project. (Establishing 21ctl switch connected with fiber). Duct work design, execution and laying of fiber. • MMA2 Ikeja network expansion project (establishing 21ctl switch connected with fiber) Duct work design, execution and laying of fiber. • NAHCO and International Airport (MMA) Ikeja Network Expansion Project (establishing 21ctl switch connected with fiber) Duct work design, execution and laying of fiber • FAAN (MMA IKEJA) network expansion project (copper). Duct work and laying of the copper. • Design and execution of ring fiber network of the company at Ikeja – Alausa network. • Design and execution of fiber project to Rapid Response Squad (RRS) Lagos Police Command, Alausa Ikeja.

January 2003 – July 2005	Gallant Systems Limited, 161, Herbert Macaulay Way Adekunle, Lagos. System Engineer / Training Coordinator/Instructor
Scope of Responsibility	• Computing systems repairs and maintenance. • Training of students in usage of computer applications packages and systems repairs. • Coordinating training in usage of computer application packages for Secondary school leavers.
Academic Publications	• November 2017. State of Fiber Optic Networks for Internet Broadband Penetration in Nigeria - A Review Published by International Journal of Optoelectronic Engineering. P-ISSN: 2167-7301 e-ISSN: 2167-731X 2017; 7(1): 1-12. doi:10.5923/j.ijoe.20170701.01 • July 2018. Characterization of a Negative Resistance Amplifier. 3rd North American International Conference on Industrial Engineering and Operations Management (IEOM), Washington, DC, USA during September 27-29, 2018. Paper accepted for presentation and publication.
Hobbies	Brainstorming, reading, imparting(teaching), playing chess and football.
Marital Status	Married
Date of Birth	01 November, 1975
Gender	Male
Next of Kin	Ifetayo Adedoyin, wife. 08028414026.
Referee	On request
